12/5/67

Dear Hal,

I'm going to New Orleans the morning of 12/9-Sat-and will stay there until, at the latest, the following Friday noon, 12/15. From there I expect to come directly home and I expect to stay home until a couple of days before Xmas, when I'll be away again for about three days.

If there is anything I should know for questioning witnesses or to tell Jim, I should have it here by the time you get this or it should be sent to me there. Jim's address is Tulane and Broad, New Orleans. I expect I'll stay at the Fontainebleau Hotel but do not know. Should you send me either the B tape or transcript or both, please register them. I can dub a copy of the tape there and can Xerox the transcript there also.

I received Paul's memo of 11/29 today. Please tell him he cannot blame so-called "printing errors" on the GPO, unless they have entirely changed their inflexible procedures since I was an editor whose stuff was published and printed there. The GPO uses only copy that is supplied. If they make any changes or alterations, they are on authorized instructions only. If he could send me a complete set of what he has on this c/o Jim, I'll copy and leave it there. I gave Jim the copy of the 11/9 memo, as Paul asked, so I do not have it. If he finds anything of importance in the ONI material, I'd appreciate copies there and will do likewise with that.

If there is anything I should know, please write me so I'll have it on my return.

In dubbing tapes, they can play them at 1 7/8, which reduces the cost. If you can get only one done, put a note in saying that and I'll copy there.

I believe I sent you copies of my Warman correspondence. Art has spoken to him. He wants money for tapes he says are of FBI harassment of the Klan chieftan (presumably over a assassination). Art will speak to him again and tell him no pigs in pokes, that I have no money but if he has something of value and I can interest anyone who has money and can get the value out, I must first know what to tell him is on the tape. That the FBI harassed a Klan chief has no value.

Still no word from John.
